WELLNESS YOUR WAY

CALM SPA

Our spa sanctuary is inspired by the ancient and beautiful architecture of Southeast Asia. Quiet spaces are surrounded by landscaped gardens contained within elements of running water.

Our wellness offering is a chance to dip in and enjoy individual treatments that can also be combined into an integrated wellness journey that can be tailored to suit your personal needs.

Our Spa menu presents a variety of treatments from our signature Ayana journey through to traditional massage therapies as well as body treatments and facials.

Wellness is not only for adults, our specially-created 'Mini Spa' menu for children will ensure little ones enjoy a pampering too.

YOGA AND MINDFULNESS

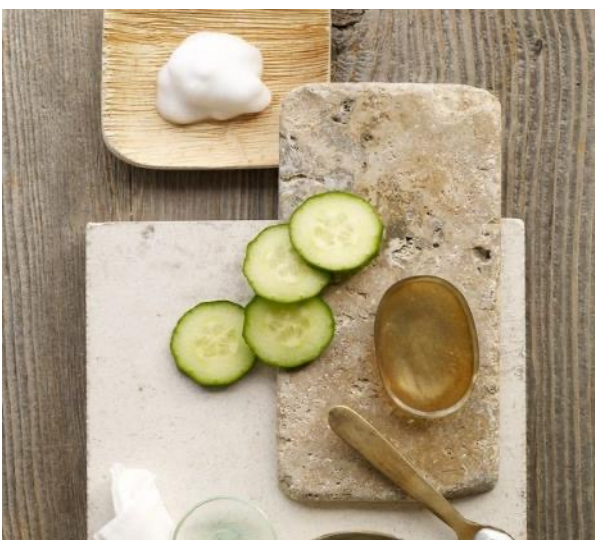

Our spa team offer scheduled and private yoga and mindfulness classes for guests. Wander around Calm Spa's walking meditation path or visit one of our majestic banyan trees to soak up the energy of our Private Island. All villas are equipped with a yoga mat to enjoy your own practice in privacy at your leisure.

DHIVEHI BEYS

The Traditional medicine of the Maldives, Dhivehi Beys, was almost lost to the world. Taking local knowledge of the past we use such wisdoms to integrate the native plants in our wellness offerings.

EATING LIFESTYLES

Our culinary team are on hand to cater to a variety of eating lifestyles such as Vegan and Vegetarian, Dairy Free, Gluten Free and Low Carb. Our cocktail menu has a choice of low sugar options as well as a full array of alcohol-free beverages.

JA MANAFARU FAMILIES

Our private island welcomes families of all sizes. We have accommodation options available for 2 to 10 guests through our choices of villas and Residences. We recognise that travelling with children has special requirements and we are here to help with plenty of activities.

JA Manafaru is certified and audited by Worldwide Kids, the leading global childcare advisory service for luxury resorts and hotels.

COOLZONE KIDS CLUB

Our kids club program is a discover experience and is designed to integrate learning into play. We take children to the Maldivian great outdoors to experience gardens, beaches and much more.

Children are welcomed to the island by our kid's club team with a welcome pack that includes the programs for ages 3 years and up and 8 years and up. Coolzone is open daily from 10am until 6pm, and a disco night for young ones is arranged two evenings per week, ideal for children from 3 years to 12 years of age.

EQUIPMENT

We can provide the following items prior to or after your arrival: Baby Cots, Bed Guards, Bottle Warmers, Bottle Sterilizers, Baby Monitors, Toilet Seat Insert, Potty, Baby Bath and a Diaper Bin.

JA MANAFARU CARES – SUSTAINABILITY

We are the custodians of the environment in which we live. Sustainability is not a catch phrase; it is in our every thought and action.

HOMEMADE AND HOMEGROWN

The lush nature of JA Manafaru's private island allows an opportunity to create a vast working 'garden-scape.' This area merges front and back of house operations and allows guests to interact with this natural environment and its flourishing nursery of vegetation in an engaging and hands-on way that they may not be able to back home.

Nothing tastes better than food made from scratch and cooked with love. It also dramatically reduces our carbon footprint through reduction in packaging and logistics, not to mention the unhealthy use of food additives.

THE REAL MALDIVES

At JA Manafaru we provide opportunities for our guest to interact with the people of the Maldives in a positive way. We offer a cultural display, Utheemu Gallery where guests can browse artifacts and more. Our weekly cocktail event showcases Maldives traditions, and we offer a variety of local island excursions for guests to experience authentic local life.

WATER BOTTLING

We make all our own water on the island using reverse osmosis and then this is turn is further processed into drinking water that we bottle onsite.

SOLAR POWER

Our heart of house area roofs are complete with solar panels. This allows us to generate around 2500 kw per day from our abundant sunlight.
